

Redwood City Public Library Policy for Use of Public Elevator

Public Elevator Policy:

Faced with repeated, ongoing acts of vandalism to the public elevator in the Library, the Library Director is authorized to keep the elevator doors locked on the first floor of the Library as a deterrent to this vandalism. People needing to use the elevator may ask any member of the Library staff to open the doors for them. The elevator doors on the Mezzanine and on the Second Floor are to remain unlocked so that people on the upper floors of the Library can return to the Ground Floor without having to wait for staff assistance. The doors on these upper floors may be locked at the discretion of the Library Director if further acts of vandalism occur.
